RESOLUTION OF 28TH DECEMBER 2017

Resolving the call for the “Clarín” Programme for Postdoctoral Grants of the Principality of Asturias for years 2017/2019

ONE.- The Resolution of 11th February 2014 of the Council of Education, Culture and Sports approves the bases regulating the “Clarín” Programme for Postdoctoral Grants of the Principality of Asturias (BOPA of 14th February).

TWO.- The Resolution of 16th March 2017 by the Council for Education and Culture on 16th March 2017 makes a call for the “Clarín” Programme for Postdoctoral Grants of the Principality of Asturias for years 2017/2019. The Extract was published in the BOPA of 24th March 2017.

The Programme will be financed by budgetary implementation 14.08-422D-782.023 “Clarín Programme Grants” of the General Budget of the Principality of Asturias for academic year 2017, whose expenses were authorised by the Governing Council of the Principality of Asturias, at its meeting on 15th March 2017, plus the co-financing deriving from the Marie Curie-Cofund Programme, under the terms established in the collaboration agreement between the Principality of Asturias and the Fundación para el Fomento en Asturias de la Investigación Científica Aplicada y la Tecnología (Foundation for the Development of Applied Scientific Research and Technology in Asturias – FICYT), for the execution of a Community project of the Marie Curie-Cofund actions programme (Call for the “Clarín” programme for postdoctoral grants of the Principality of Asturias), signed on 28th June 2013 and later modified, having the following estimated distribution according to entities and annuities:

	Principality of Asturias	FICYT	Total
2017	503,500	335,667	839,167

THREE.- In accordance with articles 1 and 2 of the Call, the grants will follow one of the following modes:

- Mode A: Postdoctoral stays to perform research projects in foreign R&D centres of excellence. Up to 22 grants may be awarded.
- Mode B: Grants aimed at the inclusion of experienced research personnel with a doctorate (having at least 24 months of accredited postdoctoral experience in a R&D centre located abroad) in Public Universities, Public Research Bodies and Technological Centres of the Principality of Asturias, to perform research activities. Up to 12 grants may be awarded.

Article 5.2 of the Call establishes that the grant period may not be under 12 months or exceed 24 months; the period granted will be that indicated in the award resolution, although exceptionally and for causes duly accredited by the person in charge of the Directorate-General of Universities and Research, it may authorise a deferment of the inclusion date and, consequently, of the start of the grant received, this period never exceeding three months.

In accordance with article 5.3, the postdoctoral research personnel will sign the corresponding work contracts with the collaborating entity, in mode A, and with the destination centres, in mode B, commencing work at the destination centres on the dates indicated in the award resolution.

According to article 5.5, in the case of mode A the grant will include – apart from the cost of the contracts – an amount of 1,500 euros per year (or that which may proportionally correspond in terms of the grant months awarded), destined to finance travel and settlement expenses, to be determined in the award resolution. This grant will become effective once it is proven the awardee has commenced work at the destination centre. If for any reason the effective period the grant is received were under six months, the Postdoctoral researcher will reimburse 50 percent of the amount received for this reason.

Article 5.6 clarifies that, in the case of mode B, an amount of 9,000 euros per year will be granted – apart from the cost of the contracts – for research expenses directly related to the execution of the research project considered. Also, there will be the possibility of collaborating in teaching tasks related to the activity proposed, if this is carried out in a University of the Principality of Asturias.

FIVE.- The request for correction of the application by Sonia Victoria Villa Sieiro (ACA17-34) was published on 11th May 2017.

As the request was not met, the Resolution of 26th May 2017, of the Council of Education and Culture, declared its dismissal.

SIX.- In accordance with article 7.3 of the Call, the State Research Agency was requested an external qualified assessment, guaranteeing the confidentiality of the contents of the reports, while taking into account the criteria and scores detailed in the article.

Once all the reports from the State Research Agency were received, the Assessment and Selection Committee – at a meeting on 6th October 2017 – issued the mandatory report establishing the order of preference of applicants, on the one hand in mode A and, on the other, in mode B.

In accordance with the last point in article 7.3 of the Call, it should be taken into account that applications obtaining a qualification under 60 points will be dismissed.

The allegations made were evaluated by the meeting of the Assessment and Selection Committee held on 7th November.

- The allegations document presented by Álvarez Dopico Clara Ilham (ACB17-03) was sent to the State Research Agency, being “ratified in the report issued as positive in
